

360 Imagery to Google Street View

(Digital Maps)

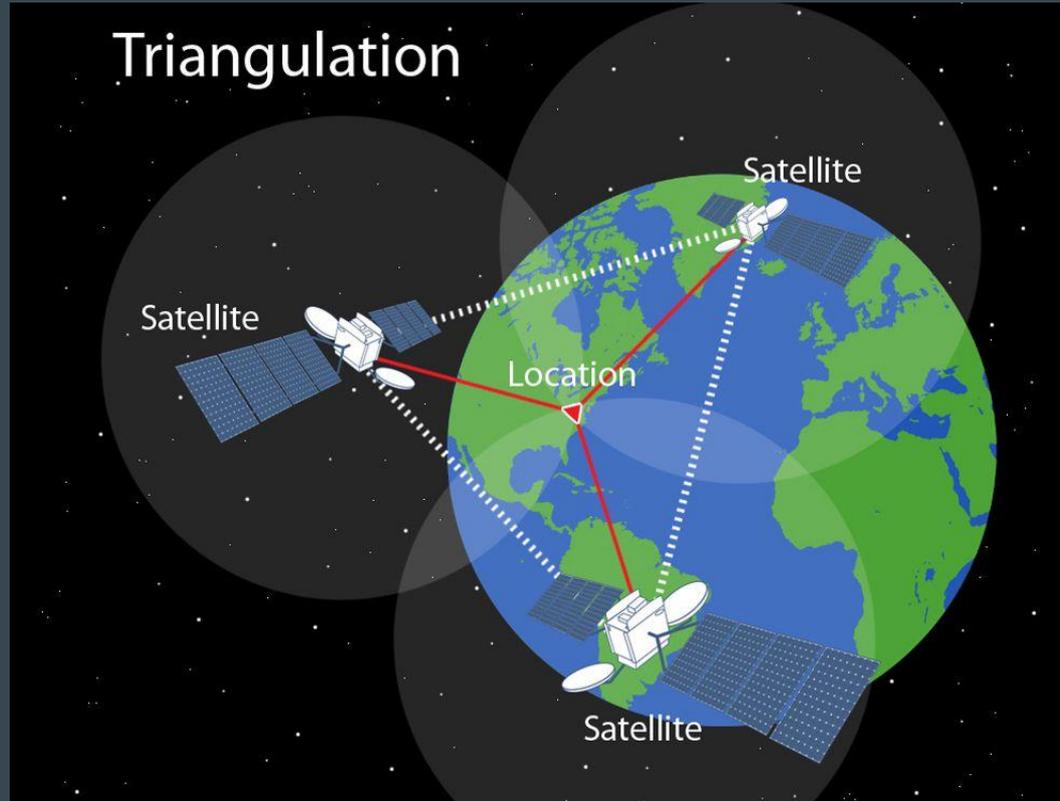

Has anyone ever seen maps like these before?

How do these maps work?

GPS (Global Positioning System)

Latitude and Longitude

Google Street View Camera

Our 360 Camera at UNI Campus

Both Google cars and our phones/360 camera use GPS to record latitude/longitude

GPS	
Latitude	43; 16; 6.95350000000317...
Longitude	91; 47; 34.44250000000046...
Altitude	286

Why Map the World?

- Travel and transportation
- Development and building
- Advertising and tourism
